

Trophy #78

# Live Production with Lumix BGH1

SKAARHOJ

## Benefits

- ★ Get more out of your artistic camera in live productions
- ★ Control the iris of compatible lenses in manual mode
- ★ Match color between multiple cameras
- ★ Set Shutter speed, exposure, modes, white balance, etc.
- ★ Access to unique Lumix features, including shading by the A-B/G-M color map, Focus areas, Creative modes
- ★ Exclusive SKAARHOJ integration, backed by Panasonic

## What to expect

Use your Lumix BGH1 camera in live production! With SKAARHOJ RCPs you can match the colors of cameras together remotely over ethernet as well as checking settings and adjusting the iris of compatible lenses. SKAARHOJ RCP Pro gives you access to shutter speed, exposure compensation, the various modes in the camera, white balance presets and kelvin values just to mention a few. Unique features like A-B/G-M color map or setting of the creative modes in the camera is supported too.

## Model Support

- Lumix BGH1

## Configurations and Alternatives

- **"Lumix BGH1 Configuration - Pro Class"** - Default camera profile  
Any SKAARHOJ controller can control Lumix BGH1 when combined with Blue Pill. These are particularly relevant:
- **RCPv2** - SKAARHOJ's main stream RCP supports the same configuration via Blue Pill.
- **Color Fly Multi Camera Control** - control multiple cameras directly with motorized faders

## Blue Pill and Reactor

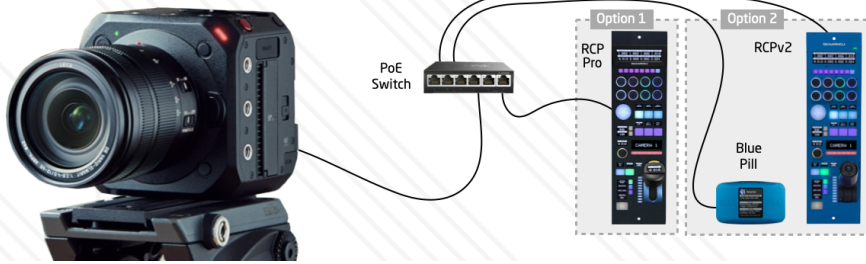

Blue Pill is a SKAARHOJ platform that boosts the capacity and capability of SKAARHOJ UniSketch controllers. Reactor is our flagship panel management application running on Blue Pill or Blue Pill Inside powered controllers.
