

Trophy #109: JVC KY-PZ400N PTZ Camera Control

JVC KY-PZ400N PTZ Camera Control

Benefit from all the native features in JVC's camera with SKAARHOJ PTZ controllers

The image features a black JVC KY-PZ400N PTZ camera on the left, with 'JVC' and '4K ERT 100x' visible on its base. To the right are two SKAARHOJ PTZ controllers. The top controller is a smaller, blue-faced unit with a large black knob and several buttons. The bottom controller is a larger, black-faced unit with a similar knob and a more extensive array of buttons, including a numeric keypad. Both controllers have a small LCD screen at the top. The background is dark blue with white circuit-like patterns. The SKAARHOJ logo is in the top right corner. In the bottom right corner, there is a small blue pill-shaped icon and a gold trophy icon with the text '#109' below it.

Trophy #109

JVC KY-PZ400N PTZ Camera Control

SKAARHOJ

Benefits

- ★ Freedom to choose many form factors of PTZ control for your JVC PTZ cameras
- ★ Take advantage of the unique features in JVC PTZ cameras through SKAARHOJ's deep integrations
- ★ Tactile controls for everything - keep your eyes on the content
- ★ Flexibility to include other brands and cameras
- ★ Integrate tally from a switcher system

What to expect

SKAARHOJ's universal controllers offers you unseen flexibility in form factor and price without compromising on your control options. The same software system, Reactor, is used for any controller.

Tactile control matters in many visual live production environments where eyes must be fixed on a screen or stage while fingers must be able to feel their way to controls. SKAARHOJ controllers are all about that. No touch screens - you can feel the right key under your finger tips.

The universal nature of SKAARHOJ controllers will let you add any other brand of camera to your controller within a blink - it's super easy with Blue Pill and Reactor, but without sacrificing the close-knit integration with the individual brands.

Tally colors for the camera selector can be picked up from external systems via TSL or direct connection to switchers and routers.

Model Support

- JVC KY-PZ100
- JVC KY-PZ200
- JVC KY-PZ300

Configurations and Alternatives

- **"PTZ Fly Generic"** - Default configuration, Standard Class
- **"PTZ Pro Generic"** - Default configuration, Standard Class
- **"PTZ Extreme Generic"** - Default configuration, Pro Class

The said configurations automatically embed a customized JVC profile as each model is added to the Camera Selector.

Technical Note

The SKAARHOJ PTZ controller connect to the Blue Pill. Blue Pill runs the Reactor application that connects the device core to the cameras. Reactor also hosts an easy to use list of the cameras and their IP addresses.

Optionally, PTZ Extreme can be purchased with Blue Pill Inside option (additional cost equal to Blue Pill price) to achieve an all-in-one solution.
