

Trophy #39: Deep control of many and any PTZ camera

Deep control of many and any PTZ camera

SKAARHOJ

PTZ Fly

SKAARHOJ panels with Blue Pill Inside will let you connect to and control dozens of PTZ cameras simultaneously and mix brands and models without losing the fine control.

#39

The image shows a collection of PTZ cameras of various shapes and sizes, including some with integrated displays. To the right is a blue SKAARHOJ PTZ Fly control panel. The panel features a large black joystick on the right side. On the left, there are five circular buttons with colored rings (purple, blue, yellow, orange, and red). Above these buttons are five small digital displays showing 'F2.8', '1/25', and '400'. Below the buttons are five green indicator lights. The panel also has labels for 'CAM 1' through 'CAM 5' and a 'PTZ FLY' label. The background is dark blue with a circuit-like pattern.

Trophy #39

Deep control with PTZ Fly

SKAARHOJ

Benefits

- ★ Tactile control of PTZ cameras
- ★ Many and any camera brands and models can be mixed
- ★ Deep integrations with every model and brand
- ★ Cost effective and yet very powerful
- ★ Save space with the compact form factor
- ★ Stay well informed with the many displays
- ★ Easy to use, easy to set up

What to expect

PTZ Fly is one of our most popular PTZ controllers and it's no wonder why. It's small but very powerful due to the Blue Pill platform inside. You can easily add and control dozens of cameras. Every camera can even be a unique model or different brand than the previous and you still maintain a custom configuration that honors the specific features in your cameras. This means you end up with fine control of all the features that gave you a reason to buy a particular PTZ camera.

Today, it's more and more common that cameras gets mixed into productions and a universal controller from SKAARHOJ is the only game in town if you want to make the most out of your camera investments.

Model Support

- Canon PTZ cameras, all models
- Panasonic PTZ cameras, all models
- VISCA PTZ cameras, many brands, all the big ones
- Vaddio cameras
- Non-PTZ cameras and composite kits (PT head + camera)

Configurations and Alternatives

- **"PTZ Fly Generic"** - Default configuration

Use the generic PTZ Fly configuration and as you add cameras you can pick individual deep configurations for each camera to get the level of control you desire. Reactor makes it easy to get advanced control.

Consider adding a Frame Shot panel with PTZ Fly to have visual thumbnails of your preset positions.

Blue Pill and Reactor

Blue Pill is a SKAARHOJ platform that boosts the capacity and capability of SKAARHOJ UniSketch controllers. Reactor is our flagship panel management application running on Blue Pill. Blue Pill technology is also available as an option (BPI) for many controllers as an alternative to UniSketch.
