What to expect

With a SKAARHOJ RCP Pro you match your ARRI Amira with the best control option that exists. SKAARHOJ has worked closely with ARRI to make sure all the unique and loved features in the Amira are available for operators during a live production. No other RCP offers that.

Reseller / Notes

We are **ARRI®** partners

RCP Pro
SKAARHOJ RCP Pro works with ARRI Amiras SSCP and CAP protocol. Together they enable access to every feature ARRI has intended for their high end customers.

Standard RCP
Standard broadcast RCPs can often talk SSCP protocol, but the feature set is limited and you won't benefit from many of the reasons you had to choose ARRI Amira in the first place.
