Trophy #64

Air Fly Pro

SKAARHOJ

Benefits

- ★ Universal switcher panel - multiple brands supported
- ★ Grow easily with modular options
- ★ OLED displays for labels - world wide language support
- ★ PTZ control integrated with joystick pad and zoom
- ★ Premium Hall Effect T-Bar with LED and state display
- ★ Option for NKK buttons (broadcast style)
- ★ Updated design and Blue Pill Inside

What to expect

Air Fly Pro is our incredibly popular universal broadcast switcher panel with configurations for ATEM, vMix, Panasonic Kairos and Tricaster systems. It's available with Blue Pill Inside and an updated design and new beautiful T-Bar with LED ring and display.

The power of Blue Pill technology makes it a perfect master for modular arrangements. The XPoint 48 controller is a perfect way to add another 4 rows of 12 buttons to the panel.

Air Fly Pro has PTZ controls integrated for convenient adjustments. The OLED displays can show labels with support for world-wide glyphs via UTF-8.

If you want to go upscale, you can add NKK buttons as an option.

Switcher Systems Supported

- vMix
- ATEM - all models
- Kairos
- TriCaster - multiple models

Modularity with XPoint 48

The power of Blue Pill Inside lets you easily add a UniSketch XPoint 48 controller to extend the number of direct input selects.

Panel Versions

Air Fly Pro is available for both UniSketch (V2) and Blue Pill Inside (V3B). Please reach out to your local reseller for guidance on your choice.

Blue Pill and Reactor

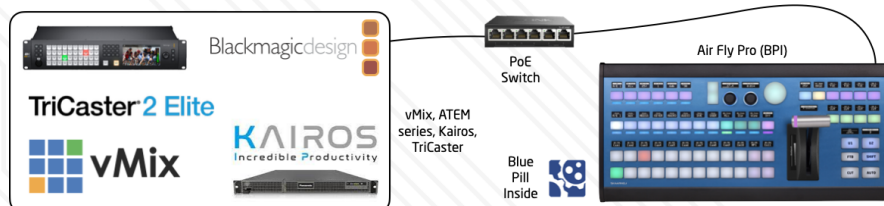

Blue Pill is a SKAARHOJ platform that boosts the capacity and capability of SKAARHOJ UniSketch controllers. Reactor is our flagship panel management application running on Blue Pill or Blue Pill Inside (BPI) powered controllers.
