

# Trophy #67: Panasonic AK-UC4000 4K Studio Camera RCP

## Resources

- [Panasonic AK-UC400](#) - Accessories and settings to connect
- [RCP Pro](#) - Product details and price
- [Panasonic Studio Camera Device Core Parameters](#) - All the parameters we support
- [Product Information Document RCP Pro](#) - Product descriptions, product images, data sheet, FAQ and videos
- [Blue Pill / Reactor](#) - Getting started

We are constantly developing on our integrations and this page will continuously be updated

Trophy #67

# Panasonic AK-UC4000 4K Studio Camera RCP

Under development

SKAARHOJ

## Benefits

- ★ Simplified navigation and easy access to parameters
- ★ Customized RCP user experience
- ★ Control multiple cameras from the same RCP
- ★ Compatible with PTZ cameras and P2 cameras
- ★ Tally and routing with GPI connectors
- ★ Universal controller - supports many brands and models
- ★ Cost effective

## What to expect

Our integration with Panasonic AK-UC4000 through the AK-UCU600PSJ CCU is one of the deepest integrations we have made! The default configuration for RCP Pro is designed with pages of parameters and additional shift layers and OSD navigation. Yet, it's very easy to reach any function in a few button presses. You can also easily change how parameters are mapped to buttons to customize and increase the usability for the operator.

RCP Pro is designed for multi camera control and you can mix in more AK-UC4000 cameras or any other type, such as PTZ and P2 cameras or even other brands and models. RCP Pro has a great web UI for easy management of cameras and connections.

RCP Pro has tally and routing GPI pins on the back in addition to software features for TSL. As a whole, RCP Pro is extremely powerful and cost effective for the feature set you get!

## Model Support

- AK-UC4000

## Camera Profiles

- "Panasonic Studio Camera - Pro Class" - Default camera profile

## Other controllers

We also have a configuration for our Rack Control Uno panel to control audio levels on camera microphones.

## Blue Pill and Reactor

Blue Pill is a SKAARHOJ platform that boosts the capacity and capability of SKAARHOJ UniSketch controllers. Reactor is our flagship panel management application running on Blue Pill or Blue Pill Inside (BPI) powered controllers.
